

newLStack

LStackPush

newLStackInternalNode

```
graph LR; A[newLStack] --> B[LStackPush]; B --> C[newLStackInternalNode];
```

The diagram illustrates a sequence of three operations in a flowchart. It begins with a box labeled 'newLStack', followed by an arrow pointing to a box labeled 'LStackPush', which then points to a final box labeled 'newLStackInternalNode'. The boxes are rectangular with a dark border. The first two boxes are white, while the third is gray. The arrows are blue and point from left to right.
